TRANSFORMING THE **CONSTRUCTION SECTOR** THROUGH THE USE OF **SMART TECHNOLOGIES**

.....

With an objective to help the construction industry interrogate the practical potential of evolving technologies, tools, processes and materials - the **iNDUSTRIALISED CONSTRUCTION CONFERENCE** is set to answer some of the most challenging questions about the breakthroughs that are set to revolutionise the construction arena.

Responding to the pressing need to ditch outmoded methods of construction and take a lead from more dynamic industrial sectors, taking place on **02 & 03 July 2025 in Coventry**, the **Industrialised Construction Conference** will bring together those with the insight and insider information to evaluate transformative innovations and explore how they can be used in a real-world context to radically advance how buildings are designed, developed and delivered.

The latest onsite advances and sophisticated interconnected offsite manufacturing approaches - automation and robotics, combined with the development of new materials and digital engineering have the capability to improve platform design and productivity to create a smarter and more diverse industry. Expert speakers will reveal how emerging advancements can be assessed and selected to improve construction practices together with outlining the industry (r)evolution required to implement change and embrace Industry 4.0 - the fourth industrial revolution for increasing efficiency and productivity.

EXHIBITION & SPONSORSHIP OPPORTUNITIES

The **Industrialised Construction** exhibition provides the ideal platform for construction professionals to share knowledge and investigate how technology and digital engineering can revolutionise the industry. The exhibition will encompass a variety of smart technologies, including AI, virtual/augmented reality, 3D printing, BIM, new materials/systems and offsite manufactured solutions.

Advances in technology are now more rapid than ever - and this is only going to increase. The digital landscape continues to evolve and adapt the ways that the construction industry operates. As a result, not only is it important that we keep pace with the latest innovations, we must also understand which new systems represent real opportunity for a step change in productivity.

WHY EXHIBIT?

- Raise your company and product profile through direct interaction with key target audiences generating highly qualified leads.
- Choose from a wide range of flexible exhibition packages, offering promotional opportunities to suit all resources and budgets.
- Take advantage of the event's extensive digital marketing campaign.
- Benefit from the central location with excellent public transport links and within two hours' drive of 75% of the population.
- Relax in the knowledge that our dedicated team will guide you through every step of the process starting pre-event, onsite and post-event to maximise your return on investment.

WHY SPONSOR?

Choose from our range of **Industrialised Construction** sponsorship packages to secure exposure for your company. Aside from high-level branding, these packages also offer networking, thought leadership, speaker and lead generation opportunities. Book an **Industrialised Construction** sponsorship package to align your business with those who are inspiring the industry evolution.

- Position your brand alongside those shaping the future of construction.
- Demonstrate your authority and reputation as an industry expert.
- Generate brand awareness and connect with your audience to gain industry exposure.
- Access targeted visitors to engage with new clients and business partners.
- Embrace lead generation opportunities to accelerate return on investment.
- Spotlight your brand as a core part of near-future construction technologies.
