

## Door scheduling made simple

**RapidSpec Contractor**, the powerful new version of our RapidSpec door scheduling software, is designed specifically for **quantity surveyors, architectural technicians** and **commercial departments** in large construction companies and provides **instant drawings**.

We developed this version to enable you to drastically reduce the (non-productive) time and costs of specifying doors and door sets, and to ensure that doors and door sets are produced accurately by the manufacturer.

# RapidSPEC Contractor

**Fast, simple, accurate and easy to use** – no more complex manual calculations: eliminates costly errors when specifying fire doors and fire door sets.

**Automatically creates drawings** – within seconds!

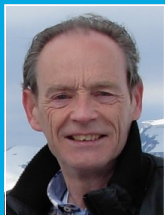

**Saves time** – generates precise door schedules in just a few clicks

## MEET THE TEAM

**CAROL  
COLE**

**DEREK  
BROWN**

**IAN  
SELBY**
