TIMBER
CONFERENCE 2025

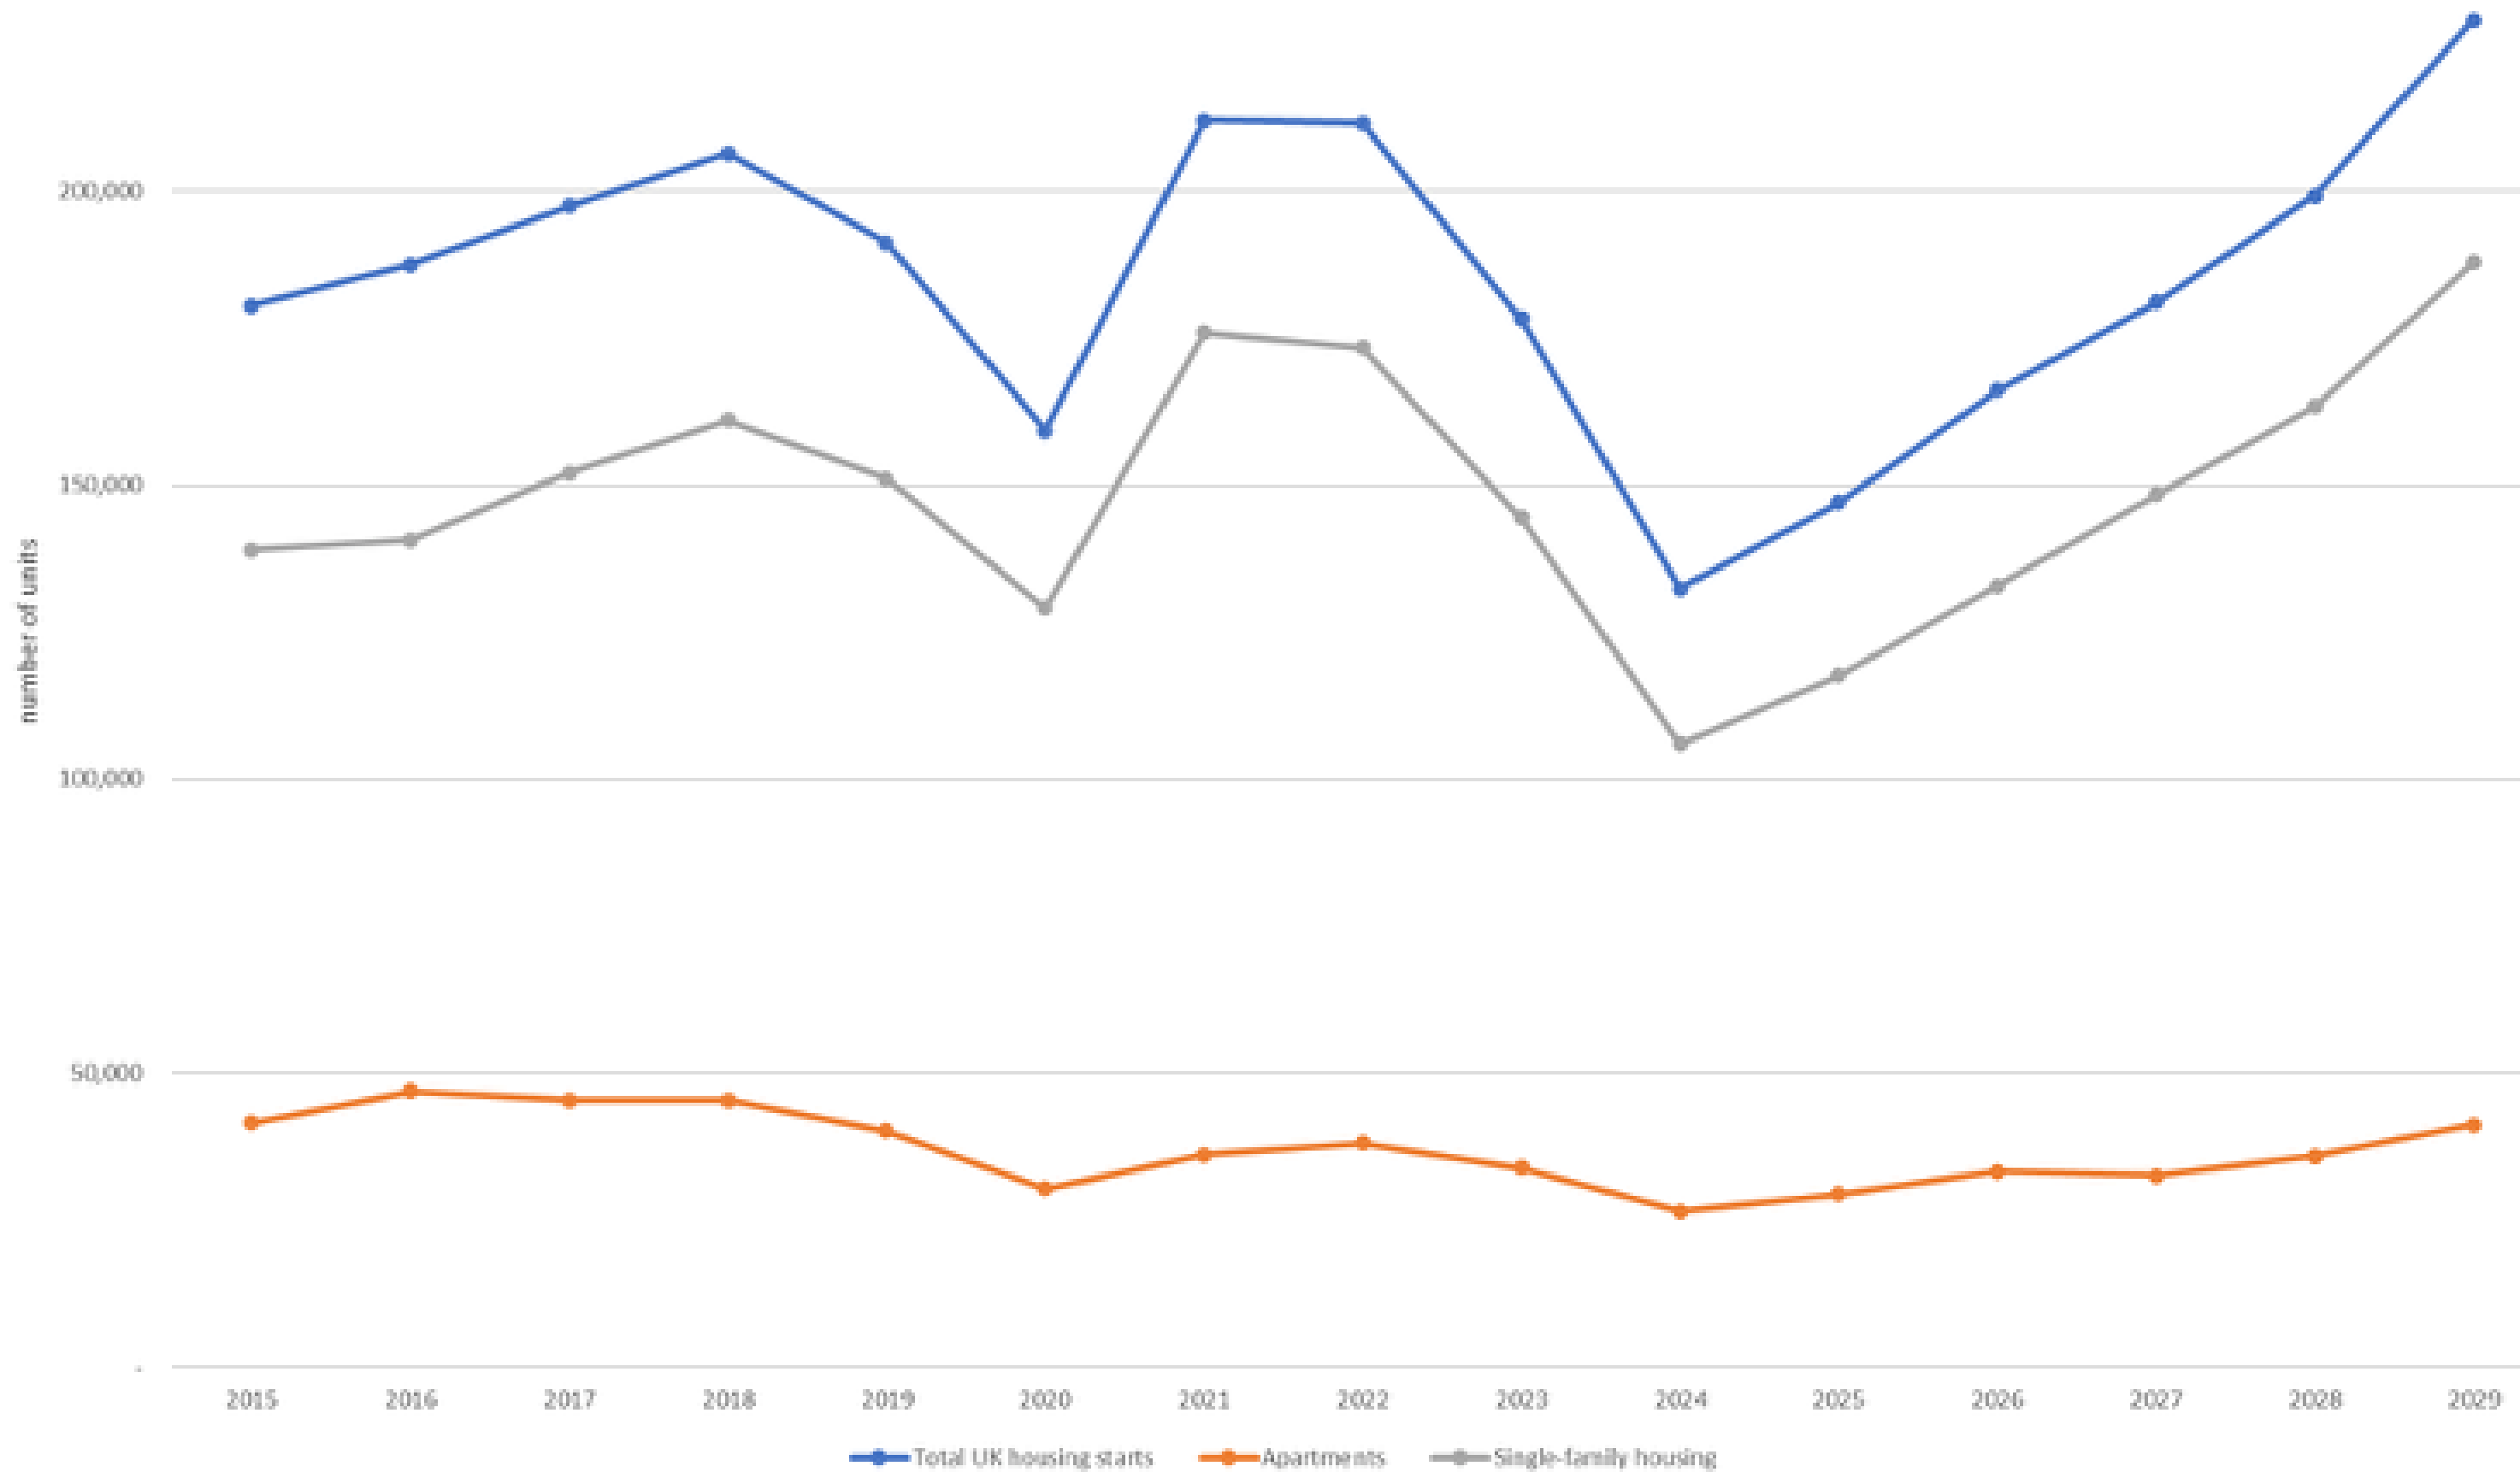

Special Thanks

A Quick Reflection

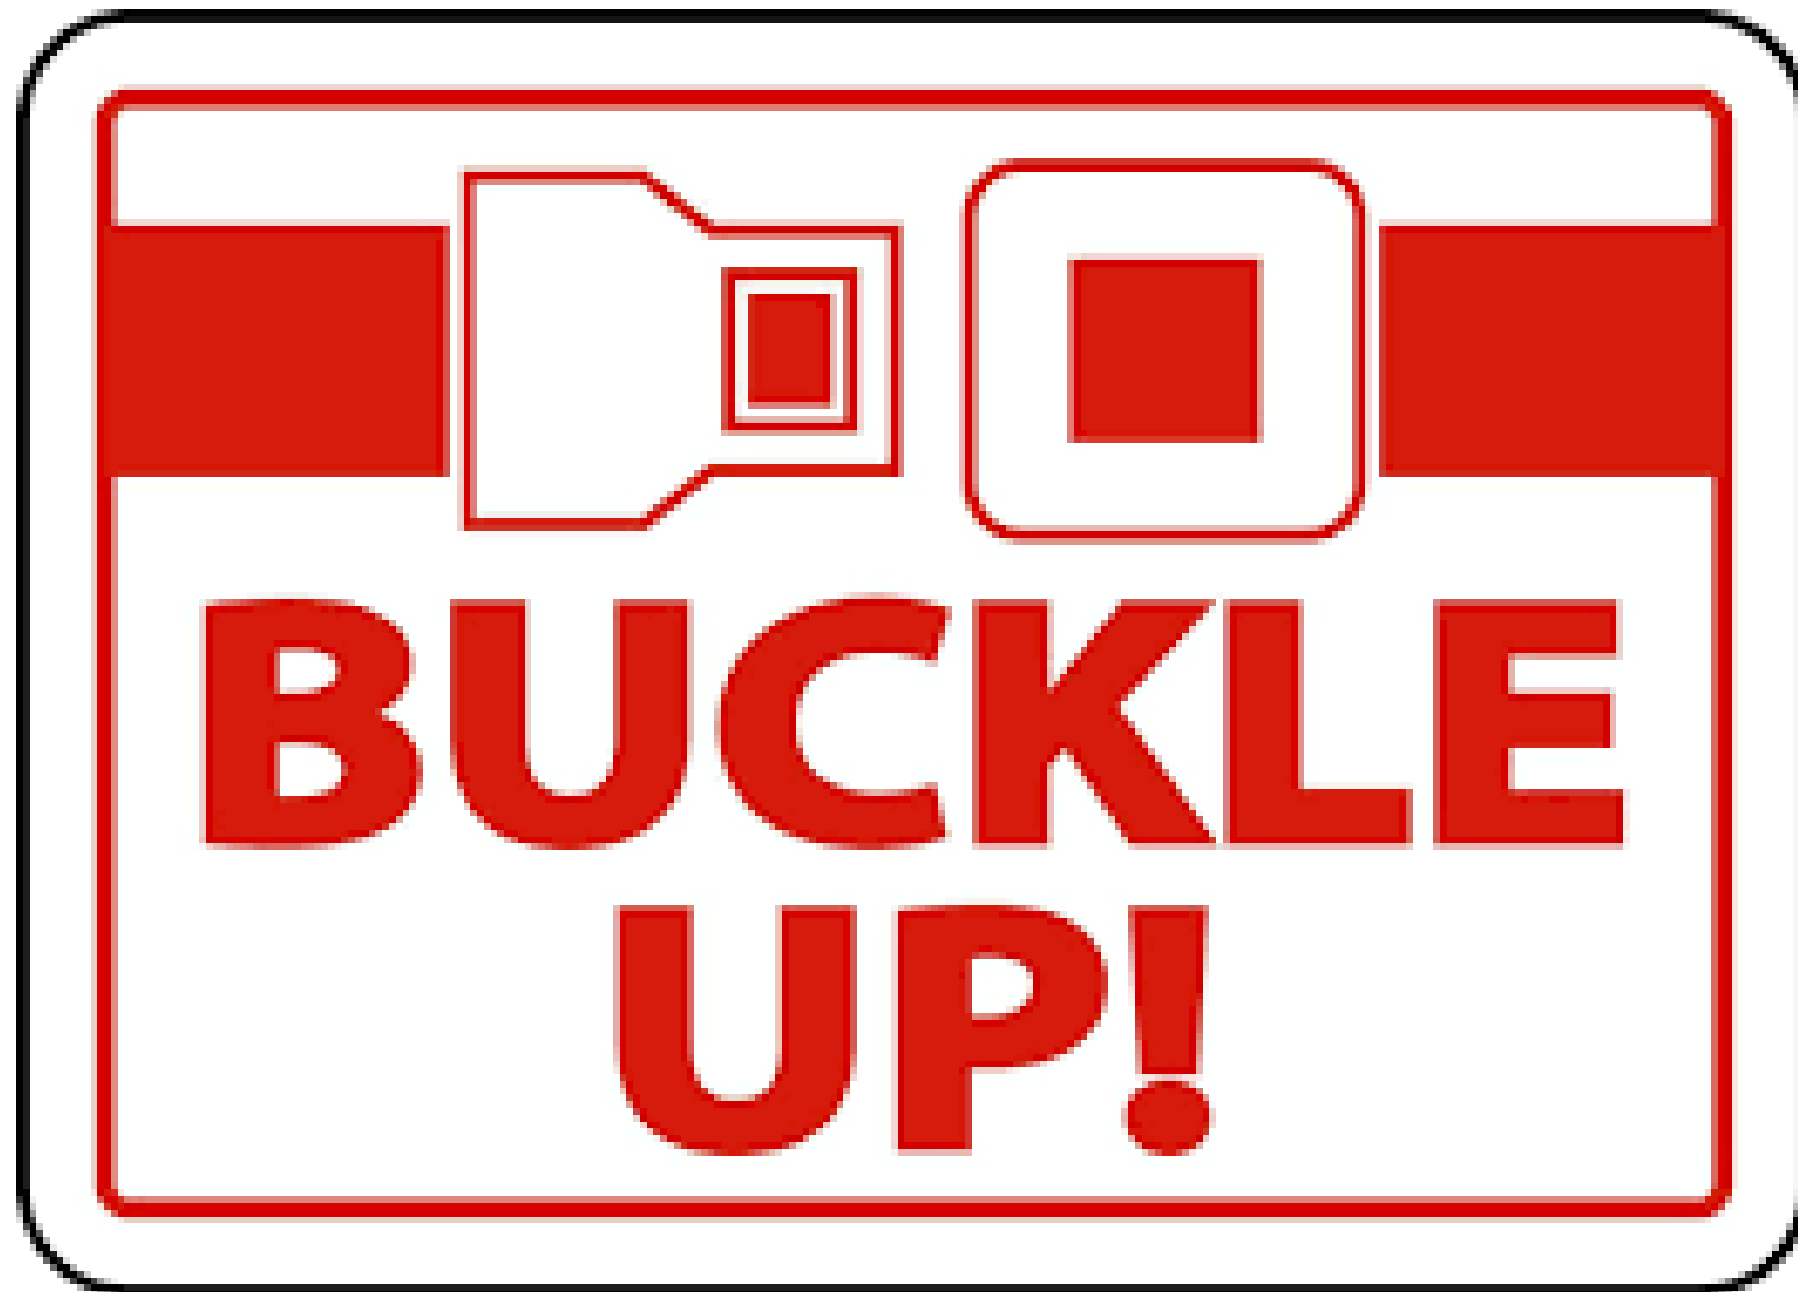

The Future of Structural Timber

- The Housing Market is a political pawn is a game of
- The structural timber industry is a victim
- Affordable housing is bogged down in remediation costs limited new build
- Economic confidence and affordability is keeping the private sector pinned down

BUT

- The noise around timber is loud
- Housebuilders self supply is having a ripple effect
- Timber in Construction Roadmap deliverables is closing down objections to timber
- STA has recognised risk of new entrants to the market
- STA has engaged with new clients
